

Region: Brussels Area
Sector: Railway, Signaling, Transport
Experience: 10 years and more

Who are we?

EGLF Engineering is a company specialized in the design of electronic equipment used in the transport sector: train, tramway, automotive, public transport, signaling, ...

We are partner of some major industrial actors, as well as fleet operators or infrastructure operators. Our activities are mainly located in Belgium, but we are regularly involved in mission across the rest of Europe.

We are a young and flexible company and as such, we are offering an optimal context for engineers to increase their experience.

We are today looking to recruit one
Technical Projects Officer

Profile

- Master's degree in engineering or similar.
- More than 10 years in electronic products in Transport or industrial field
- Experience in Project Scheduling and Risk/Opportunity Management
- Confirmed Experience with electronic design and/or embedded software development
- A full proficient use of English is mandatory. Fluency in French and/or Dutch is appreciated.
- Behavioral competencies:
 - Positive personality
 - Rigorous and reliable
 - Ability to work efficiently both independently and as part of a team
 - Promote Teamwork and communication
 - Good analytical & synthetical skills
 - Strong interpersonal skills
 - Excellent written and verbal communication
 - Self-motivated
 - Negotiating skills
 - Resistance to stress

Function:

As a Technical project Officer, your mission will be to lead technical projects. It will include the management of several teams and suppliers involved in the different activities of definition, design, development, verification and validation of transport electronic products.

It means:

- You will be fully responsible to execute multiple technical projects
- You will maintain and monitor project plans, project schedules.
- You will organize the activities of the internal technical teams
- You will be the interface between technical teams and the management team
- You will be part of the management team of the company.
- You will report to the company director.
- You will ensure that project deadlines are met.
- You will ensure the project execution in line with company defined process.
- You will ensure that all documentation is maintained appropriately for each project.
- You will assess project risks and issues and provide solutions where applicable

Offer:

By joining EGLF Engineering, you will be part of a company that will allow you to develop your competences in a sector which is in constant evolution. You will participate to the technological challenge required by the transport of tomorrow. We offer:

- Permanent contract
- Competitive salary including mobile phone, meal vouchers, pension scheme & hospitalization, ecocheques
- Positive & stable working atmosphere
- Company car or public transportation

Apply by sending us your resume at jobs@eglf-engineering.be.
